

## Authentic Brooklyn Pizza

Our mission was not simple: Replicate and sublimate the gusto of a great New York Slice while conserving the traditional Italian knowledges.

BUSHWICK Pizza Co was born in New York, falling in love with the art of making good, fresh pizza faithful to the true flavour of Italy.

Our inspiration came from the neighbourhood of Bushwick in Brooklyn where we have rediscovered some of the best pizza making techniques, new & old.

We brought this expertise to London to create the BUSHWICK Pizza Co, combining Bushwick savoir faire with Italian conviviality, dispelling the sacred aura which has often wafted around the art of the pizza.

Bushwick Pizza Co took is influenced directly by the best New York Italians, using creative and seasonal toppings, and, of course, excellent dough stretched by hand, pressed to order into an oval shape, topped, and baked in the oven for 90 second yielding to a crisp crust.

Come by for lunch, dinner or take away slices.
